

# SCIENCE ODYSSEY

**Join the adventure!**  
**May 6 to 21, 2023**

## What is Science Odyssey?

- Canada's largest celebration of science, technology, engineering and mathematics (STEM).
- Connects Canadians with researchers, scientists, government, academia, community organizations, museums and science centres through engaging, fun and inspiring experiences.
- Opens the doors to labs, museums, research centres, and many other science institutions and organizations that help foster a strong science culture in Canada.
- Helps Canadians recognize that science, technology and innovation shape our daily lives.
- Since 2016, Science Odyssey has mobilized annually over 500 organizations who hosted more than 1000 events each year in over 350 locations across the country reaching an estimated half-a-million Canadians every year.

## How can you participate?

- 1 If you're a teacher, organize a science-related event or activity with your class.
- 2 If you're a science outreach champion, align your existing activities with the Science Odyssey calendar.
- 3 If you're a parent, consult the list of events and join the celebration.
- 4 Teachers and partners can contact us for help with online resources, ideas, tips and easy-to-do activities.
